

UNEECOPS

quest for excellence

A CMMi Level 3 Company

CASE STUDY

Haryana Leather Chemicals

A joint venture with ICAP-SIRA ITALY, having technical alliance with VISMON –SPAIN, Haryana Leather, is an integrated research and manufacturing facility for chemicals for leather, textile, footwear and PVC processing.

Business Challenge

The key business challenge with Haryana Leathers was non – integrated processes. Their inventory, MRP and production processes were not in sync with each other and as a result there were major gaps in procurement.

Why SAP B1?

Haryana Leathers needed a system that would integrate their inventory, production and procurement processes and at the same time give them real time insights into purchase and material costing. They chose SAP Business One as this is an internationally accepted, user-friendly software. Moreover SAP Business One includes management of Last Purchase Price/ Material Costing for Stock and has an easy MRP + Cost Management system.

Key Benefits

- Easy management and integration of inventory, production and procurement.
- Simplified MRP and Cost Management System.
- Excise Record & Reporting Management.
- Quick and easy WIP Inventory tracking.
- Constant availability of actionable information.

Client Speaks

“SAP Business One has helped us address our key pain areas like MRP management and Excise Processes. We now have strongly integrated business processes and get instant insights into critical information.”

Sukanto Chaudhary, CFO

Uneecops PLUS+ Edge

Uneecops PLUS+ the custom solution for Haryana Leathers seamlessly integrated all business functions and helped the company optimize its processes to a great extent.

After a detailed understanding of the work flow between the business functions and the key gap areas, our experts drew a step by step implementation chart for Haryana Leathers. The approach was to integrate the work flow in such a way that the whole system would be extremely user friendly and would track critical processes like inventory management, and MRP and cost management real time.

We worked closely with the client to understand all their requirements and tweaked our solution to meet the needs of all the users.
