PLUS+

## Dairy

### Why Uneecops PLUS+ ?

Time and product quality are the essence of the dairy industry. The manufacturers are often caught between short shelf life of the products on one side and multi level quality checks on the other. If not managed well, the dairy incurs heavy production losses. With dedicated modules for each sensitive task, a Uneecops PLUS+ is a customized SAP Business One add on that automates and improves dairy industry's business processes and offers great control over aspects like Raw Milk Procurement Management; Distribution Management; Financials and Banking; and Reporting.

### Key Benefits

- Dynamic milk procurement and pricing based on FAT/SNF.
- Production monitoring and performance enhancement.
- Gain/ Loss management of chilling centers and transporters.
- Automated billing and payment management (in bulk)
- Easy management of city supply and distribution.

Ready to optimize business costs and maximize profits?
