

Uneecops Plus+

Subcontracting

Why Uneecops PLUS+ ?

Manufacturing organizations continually struggle with tedious manual management of multiple processes. Uneecops PLUS+ for Sub-Contracting is a complete solution that leverages the power of SAP Business One to remove manual involvement in tracking of job work orders and linking them to finance.

The system is fully equipped to handle common industrial challenges of sub contracting like, BOM level detailing and tracking & issuing receipts against job work orders. The solution empowers the top management to remove the cumbersome manual labor in job tracking and replace it with omniscient automation.

Key Benefits

- Automated sub contracting management
- Excise compliance management
- Stock reconciliation with item conversions
- Commercial management of sub contractors
