COMPANY OVERVIEW

Producer and supplier of frozen bakery products & confectionery intended to serve ready-to-use bakery delicacies. The company supplies breads, including French baguettes, rolls, burger buns and pizza dough, flavored cakes like chocolate and strawberry; hot and cold pies and quiches for major food chains, enabling institutional sectors like hotels and restaurant chains to be provided with all their confectionery needs.

“We’ve seen a very good level of professionalism the team Uneecops has maintained for 9+ years now. **I would definitely recommend Uneecops to all other companies looking for an SAP Partner.**”

Sahil Jain, Manager IT,
Bakers Circle India Pvt. Ltd

BEFORE: TRADITIONAL & MANUAL BUSINESS PROCESSES

- ✓ Servicing major global food retailers across multiple locations, Bakers Circle required an advanced ERP to manage their high-growth business
- ✓ Using multiple software systems to manage planning, procurement and orders was leading to inefficiency in workflow and delayed delivery times
- ✓ Manual processes and data entry was limiting the accurate data needed for confident decision making

WHY SAP & UNEECOPS

- ✓ SAP Business One is the best solution to meet the dynamic requirements of bakery business to deliver top-quality baked goods on time
- ✓ The software helps in real-time access to inventory, orders, batch management, recipe management and shipping data needed for the bakery industry
- ✓ Uneecops was selected as it has the unmatched expertise in meeting the exact business requirements of similar industries
- ✓ Uneecops decade-plus experience in handling successful SAP Business One implementation projects makes it an SAP partner of choice for end-to-end business transformation

AFTER: ADVANCED SYSTEM TRANSFORMED BAKERY BUSINESS

- ✓ Easy to process orders more quickly, fill them more accurately, and deliver them on time
- ✓ Management can track sales, revenue, invoices and payments by the retailer with integrated financials
- ✓ Complete inventory management gave better visibility and avoided out of stock situations, meeting production deadlines
- ✓ Streamlined supply chain activities improving time to market and overall customer satisfaction

EFFICIENCY GAINS

Improved Supply Chain Management

Significant improvement in supply chain activities. Precision in order processing boosted customer satisfaction.

Operational Excellence

Unified platform enables a seamless workflow across departments and locations. This ensures streamlined day to day activities.

Think Intelligent Enterprise Think Uneecops
