SAP Business One

We have been associated with Uneecops for the past 9+ years, and our partnership is going stronger. Uneecops has always guided and supported us at the time of performance glitches **making our automation journey seamless.”**

**Jitender Sharma, Dy. Manager (SAP),**  
Clearpack Automation Pvt. Ltd

## BEFORE: LACK OF CONTROL ACROSS REGIONS AND DEPARTMENTS

- ✓ Emerging global operations across 10 countries demanded that Clearpack Automation should have an integrated technology application to support business growth
- ✓ Lack of integration made multi-branch financial reporting complex
- ✓ Legacy software lacked advanced features needed to keep up with industry standards in terms of communication, reporting and speed

## WHY SAP & UNEECOPS

- ✓ After evaluating various systems, SAP Business One was selected due to its robustness and in-built business intelligence
- ✓ The deployment time of SAP Business One was faster and it fits best from both a functionality and technology perspective
- ✓ Uneecops was selected for this transformation drive. Besides its strong ERP implementation experience, Uneecops has industry expertise for the smooth execution of the project
- ✓ Uneecops offers personalized solutions to fit the unique needs of businesses precisely

## AFTER: VISIBILITY AND TRANSPARENCY ACROSS REGIONS AND DEPARTMENTS

- ✓ An enterprise-wide platform that integrated financial and core internal operations rendered 360° view of each location
- ✓ Production costs and timelines were managed efficiently with a customized Production add-on for SAP Business One
- ✓ With online reporting through MIS, it is easy for leaders to keep track of individual, region and departmental progress at all times
- ✓ Simplified and consistent processes across the operation help managers make critical decisions faster

## EFFICIENCY GAINS

### On-Time Delivery

Significant improvement in managing customer orders resulting in fast delivery and customer satisfaction

### Cost Control

Average reduction in inventory and lower production costs reduce costs across the business

**Think Intelligent Enterprise Think Uneecops**
