COMPANY OVERVIEW

Fujikura Ltd. is a global, Tokyo-based electrical equipment manufacturing company, developing and manufacturing power and telecommunication systems products, including devices for optical fibers, such as cutters and splicers. Incepted in 1885, the company expanded both in Japan and overseas and built subsidiaries across Europe, Asia, North and South America and North Africa. In February 2014 the company received an order of special large core fibers from Tokyo University for the Subaru Telescope located on Mauna Kea, Hawaii.

FGN Fujikura Kasei
Global Network

“SAP Business One solution, specially designed and implemented by the team Uneecops as per our unique requirements has given new growth opportunities to our business. **Better coordination among the departments has helped in timely deliveries.**”

Rahul Singhal – IT head,
Fujikura Kasei Coating

BEFORE: NO CLEAR VISIBILITY ON BUSINESS PROCESSES

- ✓ With multiple locations worldwide such as North America, South America, Europe, and Asia, Fujikura realized the need for a smart ERP that can easily handle the company's daily challenges
- ✓ Legacy system was inefficient for rendering complete visibility across the manufacturing process
- ✓ Disconnected systems led to mismanaged inventory and stock control
- ✓ Unavailability of real-time data across functions showed a negative effect on costing, schedule management and investment decisions

WHY SAP & UNEECOPS

- ✓ SAP Business One is a scalable software that addresses the needs of a growing business and manages every business functions such as finance, inventory, sales and purchase
- ✓ SAP Business One is the world's most deployed ERP known for its enterprise-ready features
- ✓ One of the trusted alliances of Fujikura suggested Uneecops as the leading SAP Business One partner with a proven track record of successful ERP implementations
- ✓ Uneecops understood the comprehensive requirements of Fujikura and helped meet their unique business challenges with ease.

AFTER: BIRD'S EYE VIEW ON THE ENTIRE WORKFLOW

- ✓ All departments were synchronized that gave a 360-degree view of business on the go
- ✓ Bill of Materials (BOM) feature of SAP Business One gave better control over multi stage production processes. This led to a great boost in productivity while maintaining the quality
- ✓ Detailed insights enabled cost-effective resource planning, improved quality control and eliminate manual errors

EFFICIENCY GAINS

Improved Productivity

In-depth insights on production processes mitigated production flaws and boost profitability

Timely Deliveries

Real-time business insights improved collaboration thus helping in time deliveries

Think Intelligent Enterprise Think Uneecops
