COMPANY OVERVIEW

Sevcon is a world leader in electrification technologies. The company offers a range of controllers, DC/DC converters and battery charging systems covering, battery voltages from 13V to over 800V to satisfy a wide range of on-road, off-road, marine and construction equipment.

" Being a firm believer in technology and software, my experience with Uneecops and SAP Business One has been pretty good. **I would personally recommend Uneecops to anyone who's looking for an SAP Business One partner.**"

Aditya Kher, Director,
Sevcon India Pvt. Ltd.

BEFORE: INNOVATION AND SCALABILITY TOOK A STEP SEAT WITH LEGACY SOFTWARE

- ✓ Sevcon realized the need for digital innovation to maintain growth, operate efficiently and stay ahead of the competition
- ✓ Keeping up with the ever-changing regulations became difficult with the legacy software
- ✓ Reports were being made manually and they lacked accuracy and reliability

WHY SAP & UNEECOPS

- ✓ SAP Business One is an end-to-end business management platform that offers industry-specific modules that suited Sevcon's requirements
- ✓ Designed to serve the needs of your growing business, SAP Business One is easy to implement and simple to maintain
- ✓ Uneecops was chosen as it is the preferred partner over the entire APAC region for successful ERP implementation and has a wide experience across most industries
- ✓ Uneecops has unmatched experience when it comes to implementing SAP Business One and rendering post-implementation support

AFTER: AUTOMATION REALIZED MISSION-CRITICAL GOALS FASTER

- ✓ Integrated financial and other core internal operations enabled efficient management of business
- ✓ The elimination of manual processes reduced errors and increased the speed and efficiency of processes
- ✓ Improvement in customer service levels helped retain and gain a loyal customer base
- ✓ Accurate real-time data empowered Sevcon to better predict the costs and overall outcome of the project

EFFICIENCY GAINS
