COMPANY OVERVIEW

SB Packagings is the manufacturer of flexible packaging material, both mono-polymer and multi-layered, in form of rolls and bags. SBP is the largest manufacturer of PE Bags in India and has a large variety of bags for different applications including Food and Hygiene products. With over 50% share of the hygiene packaging market in India, the company boasts of being the largest supplier to companies like P&G, J&J, Unicharm, Noble Hygiene, KC, Walmart, Future Group, Tata Tea, ITC, Dabur, Unilever etc.

“Uneecops provided speedy implementation and support services within the predefined timelines. **The software is doing wonders and we are looking forward to using its new modules in the coming period.**”

Akhil Batra, Finance Head

S.B. Packagings

BEFORE: LEGACY SOFTWARE LACKING INTELLIGENCE AND INNOVATION TO INCREASE PRODUCTIVITY LEVELS

- ✓ Being the largest packaging supplier in India, South Asia, Middle-East and Africa; S.B. Packagings needed a centralized platform that could mitigate its production and raw material costs
- ✓ Optimizing print per cylinder, tracking raw material consumption, bill of materials and stock details for each item was becoming a challenging task with the legacy system
- ✓ Disconnected systems were creating errors and inefficiencies in processes

WHY SAP & UNEECOPS

- ✓ SAP Business One offered a unified platform across multiple locations and departments rendering greater control over order traceability, production planning and accurate MIS report generation
- ✓ SAP Business One gave a strong foundation for growth to meet multi-locations and multi-currency capabilities thus suitable for S.B Packagings
- ✓ Team Uneecops, being the most trusted partners of SAP Business One understood the requirements and delivered S.B. Packagings the exact solution it had been searching for
- ✓ Uneecops provided robust support throughout the implementation journey and used an innovative approach to meet their mission-critical needs.

AFTER: INTEGRATED DEPARTMENTS INCREASED PRODUCTIVITY TO MANIFOLDS

- ✓ The accurate stock details on the go enabled timely response to the customers
- ✓ Controlled and accurate management of cylinder amortization was possible with SAP Business One
- ✓ Accurate Manufacture Resource Planning (MRP) and Production Planning and Control (PPC) management aligned with the production process improved finished product quality

EFFICIENCY GAINS

Cylinder Amortization

Improved productivity and reduced cost by optimally using a cylinder with SAP Business One

Track Raw Materials

Provision to track understock and overstock on the go

Think Intelligent Enterprise Think Uneecops
